

Jogo do Tapinha

Vence quem acertar mais a conta!!

Temos 24 quadrados com operações matemática e 27 triângulos com as respostas das operações.

Algumas contas não tem resposta!!

Espalhe sobre uma superfície os triângulos com as respostas viradas para cima. Faça um montinho com os quadradinhos com as contas viradas para baixo.

Alguém vira um quadrado e mostra a conta que deverá ser feita. Quem souber a resposta põe sua mão em cima do triângulo correspondente. Assim por diante até acabarem os quadrados.

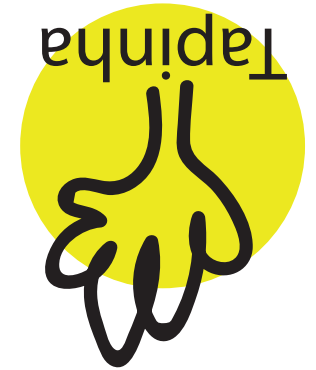

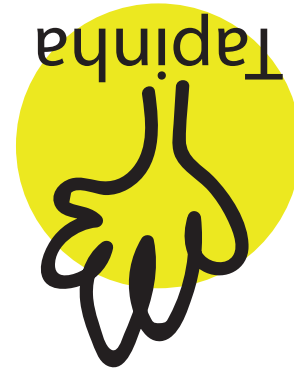

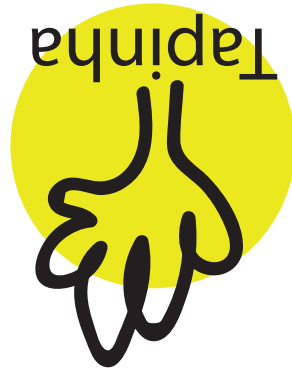

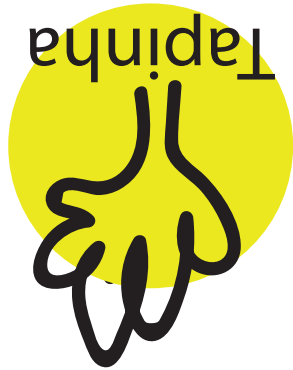

Muitos tapinhas e bom divertimento!
