

# Como montar

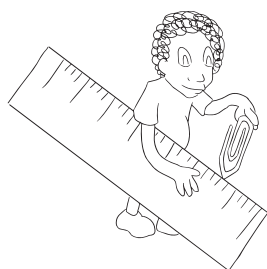

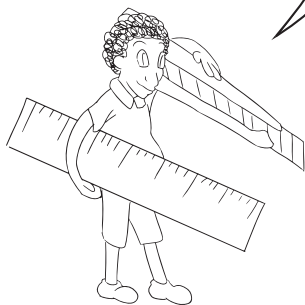

## Materiais:

- Estilete/tesoura
- Régua
- Clipse de papel (para vincar, mas pode ser com o estilete também!)
- Cola líquida (recomendo à base de álcool!)
- Papel (recomendo offset 240g!)
- E, claro, o arquivo com os bonecos impressos!

## Dicas gerais:

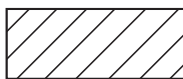

Todas as linhas contínuas  
devem ser cortadas.

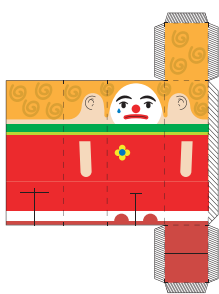

As linhas tracejadas  
devem ser vincadas e  
dobradas.

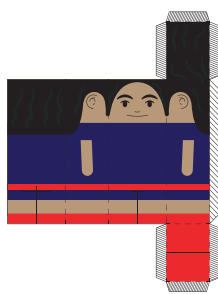

As áreas hachuradas  
devem ser coladas.

# Passo a passo

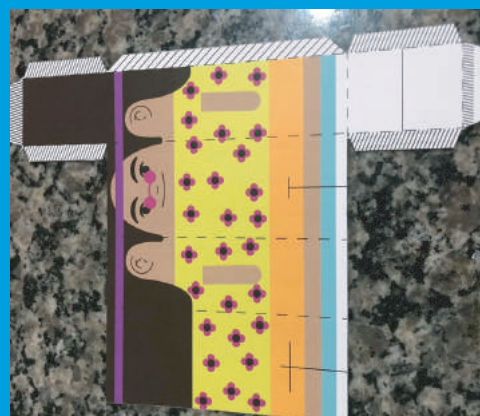

- 1.** Certifique-se de que está com todos os materiais necessários para iniciar.

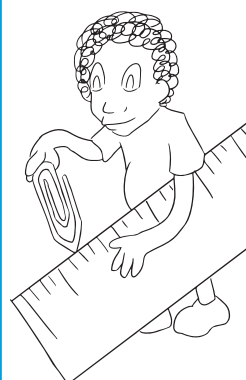

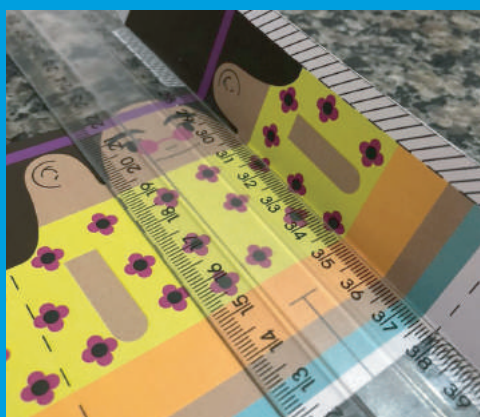

- 2.** Com o estilete, corte as linhas contínuas com o auxílio da régua.

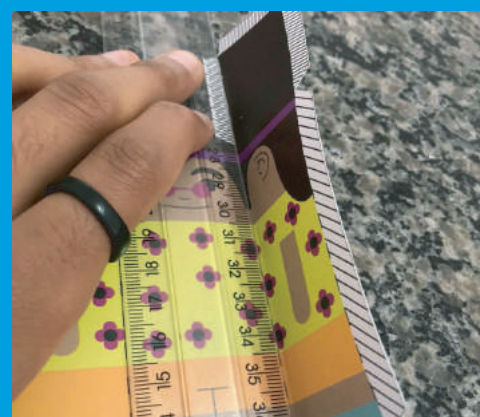

- 3.** Lembre-se de não cortar as abas para colagem!

- 4.** Após cortar todas as linhas contínuas, seu material deve estar assim!

- 5.** Agora, vinque os bonecos nas linhas indicadas: as linhas tracejadas.

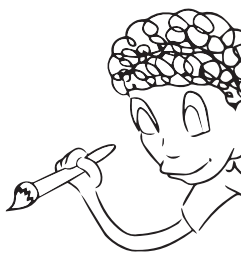

- 6.** Se possível, utilize uma régua para dobrar corretamente.

# Passo a passo

**7.** Repita os processos com todos os bonecos e o resultado será esse!

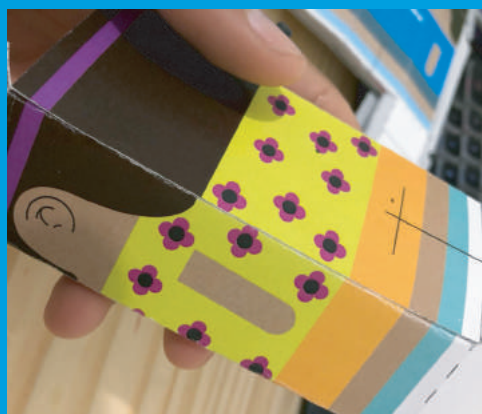

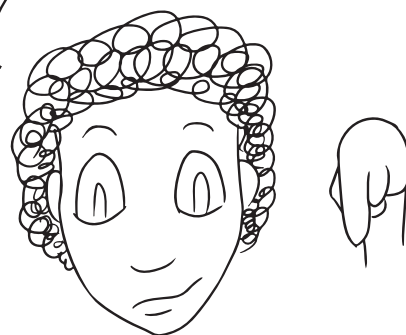

**8.** Agora é hora da colagem!

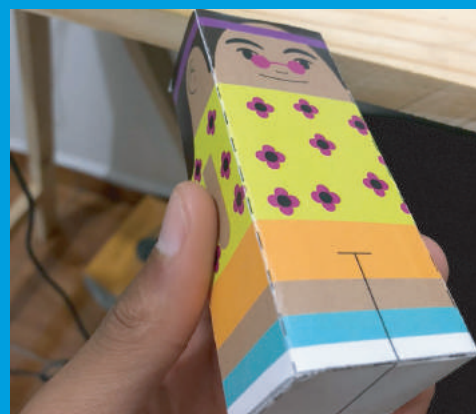

**9.** Aplique cola nas abas hachuradas. Após isso, cole na outra extremidade.

A montagem é mais simples do que parece. Veja!

**10.** Esse é o resultado. Estamos quase no fim!

**11.** Repita o procedimento de aplicar cola e “feche as tampas” do boneco como uma caixa. Esse é o resultado!
